MACGREGOR

MacGregor Emergency box for steering gear

Easy onboard access to critical spare parts ensures steering gear operation, efficiency and functionality

To ensure the performance of your steering gear, it is vital to have a quick and easy access to the critical spare parts. This is how expensive downtime can be avoided.

Our emergency box contains the most critical electric, hydraulic and mechanical spare parts that will keep your steering gear running and in safe operation. The included parts have been chosen based on decades of steering gear expertise.

The spare parts are stored in a secure box. The inside of the box is lined with soft protection material to prevent the parts from any damages.

A user manual with hydraulic and electric circuit diagrams is included in the emergency box, to enable quick troubleshooting - together with an inventory list with all included spares, to facilitate an easy refill of the box.

Advantages

- Quick onboard access to critical spare parts
- Increases the operation of your steering gear
- Advantageous bulk order solution
- Suitable for all types of MacGregor steering gear
- Easy to store on board the ship
- Easy to refill after use
- Technical information

Included spare parts

The basic content in each emergency box is based on our long experience but items can also be added or changed to adapt into your needs. The following spare parts are among those usually included into the box:

- Roof-shaped sealing set
- Pressure gauges
- Repair kit
- Solenoid pilot valve
- Couplings

The size of the box is 900 x 400 x 500mm and it is transportable.

Ordering

Please contact your MacGregor account manager or send an email to spares.cx@macgregor.com. When placing your order, please state the IMO number of the vessel and the serial number of the steering gear.

MacGregor enables sustainable global maritime and offshore operations by maximising efficiency in cargo and load handling. With decades of experience, a global presence, and a strong portfolio of innovative technologies and services, MacGregor creates lifetime value to its customers.

MacGregor solutions are designed to perform with the sea, helping the customers enhance safety, reduce environmental impact, and optimise operational efficiency from newbuilding to upgrades and modernisations.
